Invoice Id	Invoice Num	Invoice Date	Invoice Due date	Invoice Status	Item Relid	Item Type	Item Amount	Item Due date	Client

Invoices for cancel - Unpaid invoices whose products have a status of cancelled and the termination date of the products is not closer than a month ago to the current date.

Invoices for delete - Invoice items that have a status of cancelled and the termination date of the products is not closer than a month ago to the current date.

> All of this happens automatically as described in the configuration you've set up, but there's also the option to perform all actions manually.

Run action Cancel - Manual execution of the function that changes the status of all unpaid invoices whose products have a status of cancelled, and the termination date of the products is not closer than a month ago to the current date, to cancelled.

Run action Delete - Manual execution of the function that deletes invoice items that have a status of cancelled and the termination date of the products is not closer than a month ago to the current date.
