On the search page, you have the ability to search for service dumps using the following criteria: Client ID, Service ID, Search word.

After entering the search criteria, the resulting service dump entries will be displayed in a table with the following fields:

- Service: The name of the service.
- Dump date: The date when the dump was created.
- Dedicated IP: The dedicated IP address associated with the service (if available).
- Assigned IPs: The assigned IP addresses associated with the service (if available).
- Username: The username associated with the service.
- Notes: Any additional notes related to the service.
- Custom fields: Any custom fields associated with the service.
- Client: Client information, including first name, last name, email, and other details.

The table provides a convenient view of the search results, allowing you to easily review information about the found service dumps and facilitate the process of searching and managing

data.
