

Changelog

PUQVPNCP module **WHMCS**

[Order now](#) | [Download](#) | [COMMUNITY](#) | [PUQVPNCP](#)

v1.0 (2026)

- First release
 - Multi-protocol VPN provisioning (WireGuard, OpenVPN, IKEv2)
 - Lifecycle: create / suspend / unsuspend / terminate / change-package
 - Per-client download and upload bandwidth caps
 - Per-product VPN network selection via checkboxes — iterated at provisioning, first with free IP wins
 - Client area: VPN client details, WireGuard config + QR, OpenVPN profile, IKEv2 profile, OTL generator
 - Client area: monthly traffic chart with totals
 - Admin service tab: API connection status, remote client state, bandwidth, selected networks
 - License verification (online + offline cache)
-

Revision #2
