

Automatic backup scheduler

[Order now](#) | [Download](#) | [FAQ](#)

In order to go to the automation settings of the backup scheduler
Go to **Settings->Backups->Configuration**

The screenshot shows the PUQVPNCP web interface. The top navigation bar includes the logo 'PUQVPNCP', a help link '? HELP?', the user name 'ruslan (79.184.24.43)', and a 'Logout' button. The left sidebar contains a menu with 'Dashboard', 'VPN servers', 'VPN accounts', 'Settings', and 'About us'. Under 'Settings', the following items are listed: 'System', 'Firewall', 'DNS', 'Traffic logging', 'Backups', 'One-time link', 'System users', 'API', and 'License'. The 'Backups' item is highlighted with a red box. The main content area is titled 'Backups' and features three buttons: 'Create', 'Create without statistics', and 'Configuration'. The 'Configuration' button is highlighted with a red box. Below these buttons is a file upload section with a 'Choose File' button, the text 'No file chosen', and an 'Upload' button. A table displays a list of backup files with columns for 'Name', 'Size', and 'Creation'. Each row includes three action buttons: 'Download', 'Delete', and 'Restore'. The 'Delete' buttons are highlighted with red boxes.
