

Automatic backup scheduler

[Order now](#) | [Download](#) | [FAQ](#)

In order to go to the automation settings of the backup scheduler
Go to **Settings->Backups->Configuration**

The screenshot shows the PUQVPNCP web interface. The top navigation bar includes the logo 'PUQVPNCP', a help link '? HELP?', the user name 'ruslan (79.184.24.43)', and a 'Logout' button. The left sidebar contains a menu with 'Dashboard', 'VPN servers', 'VPN accounts', 'Settings', and 'About us'. Under 'Settings', the following options are listed: System, Firewall, DNS, Traffic logging, Backups (highlighted with a red box), One-time link, System users, API, and License. The main content area is titled 'Backups' and features three buttons: 'Create', 'Create without statistics', and 'Configuration' (highlighted with a red box). Below these buttons is a file upload section with 'Choose File', 'No file chosen', and an 'Upload' button (highlighted with a green box). A table displays a list of backup files with columns for Name, Size, and Creation. Each row includes 'Download', 'Delete', and 'Restore' buttons. The 'Delete' buttons are highlighted with red boxes.

Name	Size	Creation	Download	Delete	Restore
