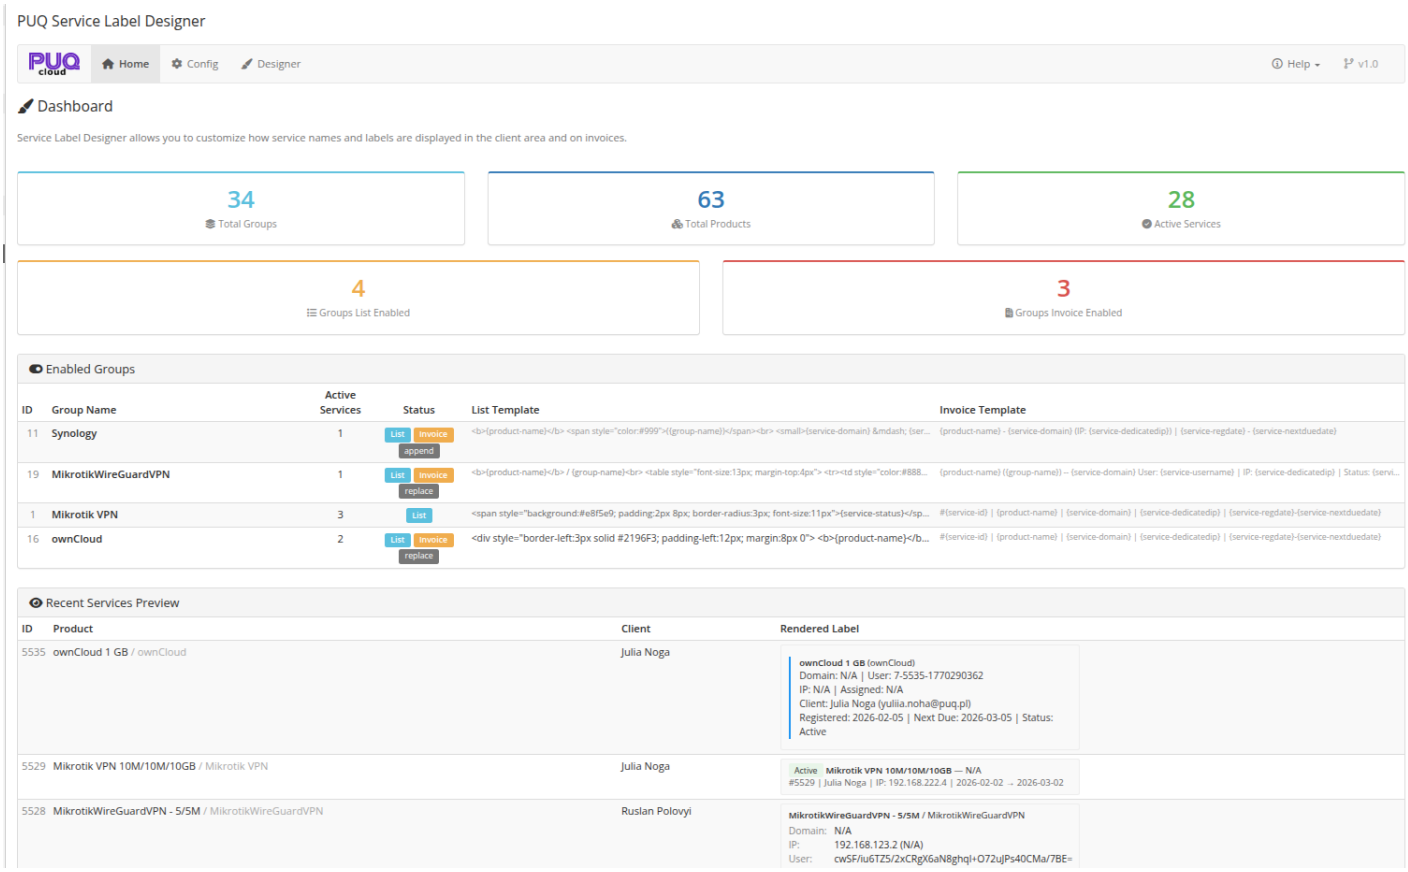
# Dashboard

## Service Label Designer addon **WHMCS**

Order now | Download | FAQ

The Dashboard is the home page of the module, available at: **Addons** > **PUQ Service Label Designer** > **Home**

It provides a complete overview of your label configuration — key metrics, enabled groups, and a live preview of how labels look on recent services.



*02-dashboard.png*

# Key Metrics

The top section displays summary cards:

| Metric | Description |
|---|---|
| **Total Groups** | Number of product groups configured in WHMCS |
| **Total Products** | Number of products across all groups |
| **Active Services** | Services with Active status |
| **Groups List Enabled** | Number of groups with the client area list overwrite enabled |
| **Groups Invoice Enabled** | Number of groups with invoice text enabled |

---

# Enabled Groups

A table showing all product groups that have either List or Invoice overwrite enabled:

| Column | Description |
|---|---|
| **ID** | Product group ID in WHMCS |
| **Group Name** | Name of the product group |
| **Active Services** | Number of active services in this group |
| **Status** | Badges indicating which features are enabled: **List** (blue), **Invoice** (orange), and the invoice mode (append/replace/prepend) |
| **List Template** | Preview of the overwrite list template (truncated) |
| **Invoice Template** | Preview of the invoice text template (truncated) |

---

# Recent Services Preview

A table showing the 5 most recent active services that belong to groups with List overwrite enabled:

| Column | Description |
|---|---|
| **ID** | Service ID in WHMCS |
| **Product** | Product name and group name |
| **Client** | Client full name |

| Column | Description |
| --- | --- |
| **Rendered Label** | The actual rendered result of applying the template with real service data |

This section lets you instantly see how your templates look in practice without navigating to the client area.
