Add VPN account

WireGuard Business-VPN module **WISECP**

[Order now](#) | [Download](#) | [FAQ](#)

To create a new VPN account, you need to click on the **"Add VPN Account"** button on the main screen of the product.

In the opened window, you need to enter the Username, Password and select an IP address for the account that the account will use. Don't forget to click the **"Add VPN Account"** button.

The screenshot shows a web form titled 'Add VPN account'. At the top left is a 'Turn Back' button with a left arrow. The form has three input fields: 'Username' with the value 'wisecp-2-124-cloud- test', 'Password' with a 'Generate' button and the value 'FqGwhyHVHaBG', and 'IP address' with a dropdown menu showing '10.0.5.5'. At the bottom center is a green 'Add VPN account' button with a person-plus icon.

Port Forwarding

WireGuard Business-VPN module **WISECP**

[Order now](#) | [Download](#) | [FAQ](#)

To access the port forwarding settings, you need to click on the "**Port Forwarding**" button on the main screen of the product.

To create a new port forwarding rule, enter the port you want to forward, select the protocol, choose the VPN account from the dropdown list to which the port will be forwarded, and enter the port to which the forwarding will occur. After filling in the details, press the "**Add Port Forwarding**" button.
