To create a new VPN account, you need to click on the **"Add VPN Account"** button on the main screen of the product.

In the opened window, you need to enter the Username, Password and select an IP address for the account that the account will use. Don't forget to click the **"Add VPN Account"** button.

A screenshot of the 'Add VPN account' form. At the top is a 'Turn Back' button with a left arrow. Below it is the title 'Add VPN account'. The form has three input fields: 'Username' with the value 'wisecp-2-124-cloud- test', 'Password' with a 'Generate' button and the value 'FqGwhyHVHaBG', and 'IP address' with a dropdown menu showing '10.0.5.5'. At the bottom is a green 'Add VPN account' button with a person icon and plus sign.

Port Forwarding

WireGuard Business-VPN module **WISECP**

[Order now](#) | [Download](#) | [FAQ](#)

To access the port forwarding settings, you need to click on the "**Port Forwarding**" button on the main screen of the product.

To create a new port forwarding rule, enter the port you want to forward, select the protocol, choose the VPN account from the dropdown list to which the port will be forwarded, and enter the port to which the forwarding will occur. After filling in the details, press the "**Add Port Forwarding**" button.

The screenshot shows the 'Port Forwarding' configuration interface. At the top is a 'Turn Back' button with a left arrow. Below it is the title 'Port Forwarding'. The form has two main sections: 'From' and 'To'. The 'From' section has a text input with '77.87.125.201' and a label 'Enter port', and a dropdown menu with 'tcp' selected. The 'To' section has a dropdown menu with 'wisecp-2-124-cloud-server1 (10.0.5.4)' selected and a text input with 'Enter port'. At the bottom right is a green 'Add port forwarding' button. Below the form is a table of existing rules:

→ 77.87.125.201:333 tcp	→ 10.0.5.4:444 (wisecp-2-124-cloud-server1)	Delete
→ 77.87.125.201:336 tcp	(wisecp-2-124-cloud-cam2)	Delete
