

Description

WireGuard Business-VPN module

WISECP

[Order now](#) | [Download](#) | [FAQ](#)

The WireGuard Business-VPN module is designed to provide a customizable Virtual Private Network service for business clients who have the capability to independently manage their VPN accounts.

At its core, the module gives the end customer control over a group of VPN account entries, allowing them to add, remove, block, and perform port forwarding on these accounts. All accounts are part of a unified network and share a common external IP address. Additionally, there's a feature enabling internal traffic to be routed among these accounts.

This innovative system empowers end clients to establish corporate private networks tailored to their own customers. With the flexibility to manage VPN accounts and the added functionality of internal traffic forwarding, businesses can customize their VPN service to meet the specific needs of their clientele.

Attention.

The module require the PUQVPNCP control panel with active license.

Requirements

WISECP: v3.1.5+, php: v8.x, Ioncube: V12+

PUQVPNCP: v1.8+

Supports protocols:

- WireGuard
- IKEv2

Module Functions:

- Auto create and deploy VPN account/accounts
- Suspend/Unsuspend/Delete/Change Package
- Port forwarding
- Module require active **PUQVPNCP** API (need separate license)
- Possibility to set Bandwidth speed limits per client VPN account
- Module supports multilingualism (**Arabic, Azerbaijani, Catalan, Chinese, Croatian, Czech, Danish, Dutch, English, Estonian, Farsi, French, German, Hebrew, Hungarian, Italian, Macedonian, Norwegian, Polish, Romanian, Russian, Spanish, Swedish, Turkish, Ukrainian**)
- Link to instructions for setting up the service in the client area.
- Mechanism for working with servers and server groups

Available options in the admin panel:

- Create users
- Suspend users
- Unsuspend users
- Delete users
- Change Package
- VPN connection status

Available options in the client panel:

- Links in the form of buttons to the instruction and VPN clients
- General information about the service
- Password change option (for IKEv2)
- One-time link generation button for transmitting authorization data
- Option to download WireGuard configuration as a file
- QR code for WireGuard configuration
- Server certificate download button (for IKEv2)
- Download button for the profile for the strongSwan mobile application (for IKEv2)
- VPN connection status

Screenshot of the client area

Four buttons: Add VPN account, Port Forwarding, User manual, Download VPN client

Network configuration

Dedicated IP:	77.87.125.201
Private internal network:	10.0.5.1/24
VPN Protocols:	WireGuard, IKEv2
Number of VPN accounts:	3/5
Bandwidth download/upload:	5/5 M per account
