Username

wisecp-2-124-cloud

Server

dev.softkeel.com

Dedicated IP

77.87.125.201

Overwrite package settings

☐ Overwriting the package settings is necessary to personalize the service if you need it.

Send changes to server

☐ To apply the changes on the server, it is necessary to check this checkbox.

Update

In the opened tab, you have a view of the online status of the service. The available online information includes:

- Connection status to the API
- Information about the VPN accounts on the PUQVPNCP server
- Diagnostic information about the account (online status, firewall rule counters, and so on).

Also, below are fields with the client's personal data, such as Username, Server, and Dedicated IP.

You can also individually override package options for the client by checking the 'Overwrite

package settings' box.

After modifying the configuration options, check the 'Send changes to server' box to save the data to the PUQVPNCP server.

API answer OK

Username

wisecp-2-124-cloud

Server

dev.softkeel.com

Dedicated IP

77.87.125.201

Server Group

Default (Servers: 1)

Number of VPN users

5

Bandwidth Download

5 in megabits (M)

Bandwidth Upload

5 in megabits (M)

Username prefix

wisecp-

Will be attached to the beginning of username. Only small letters and numbers and symbol "-"

Username suffix

-cloud

Will be appended to the end of username. Only small letters and numbers and symbol "-"

Use main Public IP Address

☐ Use one main public IP for all services

Internal traffic

☒ Allow internal traffic

Enable IKEv2

☒ To enable the IKEv2 protocol

Persistent Keepalive

25

Interface MTU

1500

AllowedIPs

0.0.0.0/0

Link to instruction

https://puqcloud.com/

A link to the instruction will be reflected in the client area.

Link to VPN clients

Overwrite package settings

☒ Overwriting the package settings is necessary to personalize the service if you need it.

Send changes to server

☒ To apply the changes on the server, it is necessary to check this checkbox.

Update

Note: When changing the Server Group, Server, and WireGuard Server fields, make sure you have a user with the username as specified in the 'Username' field pre-created on the new server. Otherwise, you will need to recreate the service for your client.
