## WireGuard Business-VPN module **WISECP**

[Order now](#) | [Download](#) | [FAQ](#)

If you do not have a **Service Group** where you want to place the new service, you need to create a new **Service Group**

1. Log in to the administrative area of your **WISECP**.
2. Create New Service Group

Go to

Services -> Service Management -> Add Group

The screenshot displays the WISECP administrative interface. At the top, there is a dark blue header with the WISECP logo and a 'Smart Search' bar. Below the header is a navigation menu with tabs for Settings, Orders (5), Billing, Clients, Tools, WAnalytics, Support, Services, Site Management, Languages, and Help. The 'Services' tab is currently selected. Below the navigation menu, there are two main dashboard widgets: 'Today Sales (Turnover)' showing €0 and 'Current Cash' showing €0. To the right of these widgets is a dropdown menu for 'Service Management' with options: Add Group (highlighted with a red underline), Hosting Management, Domain Name Registration, Software Services, Module Settings, Addons, and Order Requirements.

Enter all the necessary data and click the '**Create Group**' button.

Edit Product

#### 4. Fill in the configuration options according to your preferences.

- **Server Group** is the group of servers from which a server will be chosen for provisioning the service
- **Number of VPN Accounts:** the quantity of VPN user accounts a client can create within this package
- **Bandwidth Download** and **Bandwidth Upload** represent the connection speed that will be restricted by these parameters, in megabits per second, respectively.
- **Username prefix:** Will be attached to the beginning of username. Only small letters and numbers and symbol "-"
- **Username suffix:** Will be appended to the end of username. Only small letters and numbers and symbol "-"
- **Use main Public IP Address:** Use one main public IP for all services

- **Internal Traffic:** If the checkbox is selected, it indicates that internal traffic between VPN clients of the client will be allowed.
- **Persistent Keepalive/AllowedIPs:** parameters of configuration WireGuard clients
- **Interface MTU:** This parameter will be set during the creation of the WireGuard interface.
- **Link to Instruction** Provide the link to the instruction for the service, and it will be displayed in the client area as a separate button
- **Link to VPN Clients** Provide the link to the page for downloading VPN clients for the service, and it will be displayed in the client area as a separate button
