Resource Usage

Bandwidth Usage In (GB)

Bandwidth Usage Out (GB)

Usage metrics and their pricing information are displayed below.

• **Network Configuration:**

- **VPN Protocols:** Displays available VPN protocols such as WireGuard and IKEv2. The client will see the configuration for IKEv2 if available.
- **Bandwidth download/upload:** Shows the bandwidth rate available for each VPN client account, which is set in the package.
- **User manual:** Link to user manual or instructions for using the VPN service.
- **Download VPN client:** Link to download the VPN client software.
- **Create one-time link:** Button to generate a one-time link with connection parameters, useful for transferring connection settings to the end user.

• **WireGuard Configuration:**

- **Download Config:** Button to download the WireGuard configuration file.
- **QR code:** QR code containing the WireGuard configuration details.
- **Configuration Details:** Displays detailed configuration settings such as address, DNS, private key, endpoint, public key, and allowed IPs.

• **IKEv2 Configuration:**

- **Download CA Certificate:** Button to download the IKEv2 CA certificate.
- **Download Profile:** Button to download the IKEv2 profile.
- **Server Details:** Displays the server address and username.
- **Password:** Displays the password for the IKEv2 configuration.

- ## Resource Usage

Summary of the Client Panel Page

- **VPN Protocols:** Lists available VPN protocols like WireGuard and IKEv2.
- **Bandwidth download/upload:** Indicates the bandwidth rate assigned to each VPN client account, as set in the package.
- **User Manual and VPN Client Download:** Provides links to the user manual and VPN client download.
- **One-time Link Generation:** Allows the creation of a one-time link for sharing connection parameters.
- **WireGuard Configuration:** Shows configuration options for WireGuard, including downloading the config file and displaying QR code and detailed settings.
- **IKEv2 Configuration:** Shows configuration options for IKEv2, including downloading CA certificate and profile, and displaying server and login details.
- **Metrics Tab:** Displays detailed usage metrics for bandwidth usage, including current usage, pricing (e.g., 10.00 EUR / GB, set in the package), and last update time.
- **Resource Usage Tab:** Displays current usage of disk space and bandwidth with the bandwidth limit set in the package (e.g., 3111MB / 1024MB) and the last updated time.

Traffic statistics

WireGuard VPN module **WHMCS**
