- ## Resource Usage

## Summary of the Client Panel Page

- **VPN Protocols:** Lists available VPN protocols like WireGuard and IKEv2.
- **Bandwidth download/upload:** Indicates the bandwidth rate assigned to each VPN client account, as set in the package.
- **User Manual and VPN Client Download:** Provides links to the user manual and VPN client download.
- **One-time Link Generation:** Allows the creation of a one-time link for sharing connection parameters.
- **WireGuard Configuration:** Shows configuration options for WireGuard, including downloading the config file and displaying QR code and detailed settings.
- **IKEv2 Configuration:** Shows configuration options for IKEv2, including downloading CA certificate and profile, and displaying server and login details.
- **Metrics Tab:** Displays detailed usage metrics for bandwidth usage, including current usage, pricing (e.g., 10.00 EUR / GB, set in the package), and last update time.
- **Resource Usage Tab:** Displays current usage of disk space and bandwidth with the bandwidth limit set in the package (e.g., 3111MB / 1024MB) and the last updated time.

# Traffic statistics

## WireGuard VPN module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

This page displays information about client traffic statistics

**Month:** In this field, you can select the month for which you want to view traffic data

**Year:** In this field, you can select the year for which you want to view traffic data

**Data type toggle:** In this field, you can turn on or off the display of days with no traffic

Graph and table that display data according to the selected parameters. You can also sort data by clicking on the corresponding headings in the table.
