Client Area Description

Manage

The screenshot displays the 'Manage' section of the WHMCS client area. It features a navigation bar with 'Manage', 'Metrics', and 'Resource Usage' tabs. The main content is organized into sections:

- Network Configuration:**
 - VPN Protocols:** Displays available VPN protocols such as WireGuard and IKEv2. The client will see the configuration for IKEv2 if available.
 - Bandwidth download/upload:** Shows the bandwidth rate available for each VPN client account, which is set in the package.
 - User manual:** Link to user manual or instructions for using the VPN service.
 - Download VPN client:** Link to download the VPN client software.
 - Create one-time link:** Button to generate a one-time link with connection parameters, useful for transferring connection settings to the end user.
- WireGuard Configuration:**
 - Download Config:** Button to download the WireGuard configuration file.
 - QR code:** QR code containing the WireGuard configuration details.
 - Configuration Details:** Displays detailed configuration settings such as address, DNS, private key, endpoint, public key, and allowed IPs.
- IKEv2 Configuration:**
 - Download CA Certificate:** Button to download the IKEv2 CA certificate.
 - Download Profile:** Button to download the IKEv2 profile.
 - Server Details:** Displays the server address and username.
 - Password:** Displays the password for the IKEv2 configuration.

Below the configuration sections, there is a 'Metrics' section with a QR code and a 'Server:' field showing 'dev.puqvpncp.com'. At the bottom, the 'Usage Metrics' section is partially visible, showing 'Bandwidth Usage In (GB)' and 'Bandwidth Usage Out (GB)'.

- **Current Usage:** GB (In), GB (Out)
- **Pricing:** Price / GB (set in the package)
- **Last Update:** Time of last data update

Resource Usage

The screenshot shows a navigation bar with three tabs: 'Manage' (selected), 'Metrics', and 'Resource Usage'. Below the tabs, there are two main sections: 'Disk Space' and 'Bandwidth'. The 'Bandwidth' section displays 'Usage' and 'Last Updated' information. The 'Usage' section shows a progress bar with '0MB / UnlimitedMB' and '3111MB / 1024MB'. The 'Last Updated' section shows 'Last Updated: Saturday, June 22nd, 2024 (11:00)'. The 'Resource Usage' section shows 'Powered by WHMCompleteSolution'.

- **Bandwidth:**
 - **Usage:** Displays the current bandwidth usage and the total available bandwidth limit (e.g., 3111MB / 1024MB, which is set in the package).
 - **Last Updated:** Shows the last update time of the resource usage metrics.

Summary of the Client Panel Page

- **VPN Protocols:** Lists available VPN protocols like WireGuard and IKEv2.
- **Bandwidth download/upload:** Indicates the bandwidth rate assigned to each VPN client account, as set in the package.
- **User Manual and VPN Client Download:** Provides links to the user manual and VPN client download.
- **One-time Link Generation:** Allows the creation of a one-time link for sharing connection parameters.
- **WireGuard Configuration:** Shows configuration options for WireGuard, including downloading the config file and displaying QR code and detailed settings.
- **IKEv2 Configuration:** Shows configuration options for IKEv2, including downloading CA certificate and profile, and displaying server and login details.
- **Metrics Tab:** Displays detailed usage metrics for bandwidth usage, including current usage, pricing (e.g., 10.00 EUR / GB, set in the package), and last update time.
- **Resource Usage Tab:** Displays current usage of disk space and bandwidth with the bandwidth limit set in the package (e.g., 3111MB / 1024MB) and the last updated time.

Traffic statistics

WireGuard VPN module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

This page displays information about client traffic statistics

Month: In this field, you can select the month for which you want to view traffic data

Year: In this field, you can select the year for which you want to view traffic data

Data type toggle: In this field, you can turn on or off the display of days with no traffic

Graph and table that display data according to the selected parameters. You can also sort data by clicking on the corresponding headings in the table.
