Client Area Description

Manage

- **Network Configuration**:
  - **VPN Protocols**: Displays available VPN protocols such as WireGuard and IKEv2. The client will see the configuration for IKEv2 if available.
  - **Bandwidth download/upload**: Shows the bandwidth rate available for each VPN client account, which is set in the package.
  - **User manual**: Link to user manual or instructions for using the VPN service.
  - **Download VPN client**: Link to download the VPN client software.
  - **Create one-time link**: Button to generate a one-time link with connection parameters, useful for transferring connection settings to the end user.
- **WireGuard Configuration**:
  - **Download Config**: Button to download the WireGuard configuration file.
  - **QR Code**: QR code containing the WireGuard configuration details.
  - **Configuration Details**: Displays detailed configuration settings such as address, DNS, private key, endpoint, public key, and allowed IPs.
- **IKEv2 Configuration**:
  - **Download CA Certificate**: Button to download the IKEv2 CA certificate.
  - **Download Profile**: Button to download the IKEv2 profile.
  - **Server Details**: Displays the server address and username.
  - **Password**: Displays the password for the IKEv2 configuration.

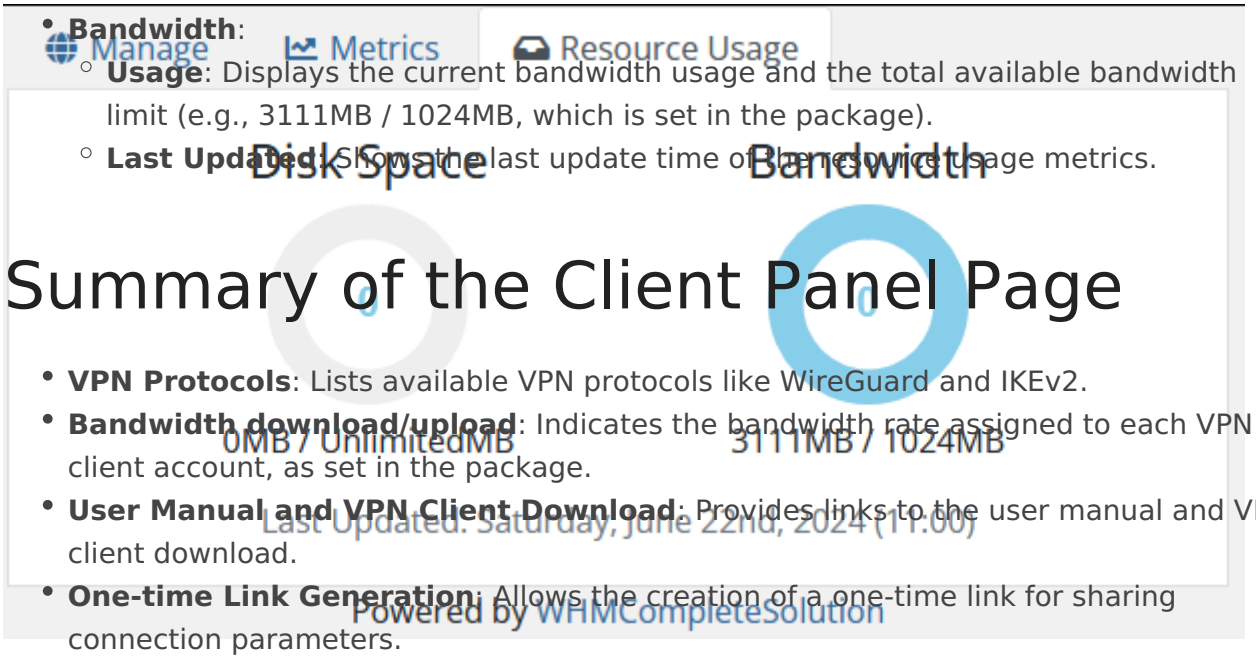

Metrics

- **Usage Metrics**:
  - **Bandwidth Usage In (GB)**: Displays the current usage, pricing, and last update time for incoming bandwidth usage.
  - **Bandwidth Usage Out (GB)**: Displays the current usage, pricing, and last update time for outgoing bandwidth usage.

- **Example**:
  - **Current Usage**: GB (In), GB (Out)
  - **Pricing**: Price / GB (set in the package)
  - **Last Update**: Time of last data update

Resource Usage

- **Bandwidth**:
  - **Usage**: Displays the current bandwidth usage and the total available bandwidth limit (e.g., 3111MB / 1024MB, which is set in the package).
  - **Last Updated**: Shows the last update time of the resource usage metrics.

Summary of the Client Panel Page

- **VPN Protocols**: Lists available VPN protocols like WireGuard and IKEv2.
- **Bandwidth download/upload**: Indicates the bandwidth rate assigned to each VPN client account, as set in the package.
- **User Manual and VPN Client Download**: Provides links to the user manual and VPN client download.
- **One-time Link Generation**: Allows the creation of a one-time link for sharing connection parameters.
- **WireGuard Configuration**: Shows configuration options for WireGuard, including downloading the config file and displaying QR code and detailed settings.
- **IKEv2 Configuration**: Shows configuration options for IKEv2, including downloading CA certificate and profile, and displaying server and login details.
- **Metrics Tab**: Displays detailed usage metrics for bandwidth usage, including current usage, pricing (e.g., 10.00 EUR / GB, set in the package), and last update time.
- **Resource Usage Tab**: Displays current usage of disk space and bandwidth with the bandwidth limit set in the package (e.g., 3111MB / 1024MB) and the last updated time.
