# Client Area Description

## Manage

The screenshot displays a web-based VPN configuration interface. At the top, there are three tabs: "Manage", "Metrics", and "Resource Usage". The main content area is divided into several sections:

- VPN Protocols:** Displays available VPN protocols such as WireGuard and IKEv2. Below this, it states: "The client will see the configuration for IKEv2 if available."
- Bandwidth download/upload:** Shows the bandwidth rate available for each VPN client account, which is set in the package.
- User manual:** Link to user manual or instructions for using the VPN service.
- Download VPN client:** Link to download the VPN client software.
- Create one-time link:** Button to generate a one-time link with connection parameters, useful for transferring connection settings to the end user.

Below these options, there are two columns of configuration details:

- WireGuard Configuration:**
  - Download Config:** Button to download the WireGuard configuration file.
  - QR Code:** QR code containing the WireGuard configuration details.
  - Configuration Details:** Displays detailed configuration settings such as address, DNS, private key, endpoint, public key, and allowed IPs.
- IKEv2 Configuration:**
  - Download CA Certificate:** Button to download the IKEv2 CA certificate.
  - Download Profile:** Button to download the IKEv2 profile.
  - Server Details:** Displays the server address and username.
  - Password:** Displays the password for the IKEv2 configuration.

At the bottom left, there is a large QR code labeled "Metrics". To its right, under the "Metrics" tab, there is a section for "Usage Metrics":

- Bandwidth Usage In (GB):** Displays the current usage, pricing, and last update time for incoming bandwidth usage.
- Bandwidth Usage Out (GB):** Displays the current usage, pricing, and last update time for outgoing bandwidth usage.

A note at the bottom states: "This product has usage based billing charges in addition to the base price. Usage metrics and their pricing information are displayed below."

- **Example:**
  - **Current Usage:** GB (In), GB (Out)
  - **Pricing:** Price / GB (set in the package)
  - **Last Update:** Time of last data update

## Resource Usage

Manage

Metrics

Resource Usage

- **Bandwidth:**
  - **Usage:** Displays the current bandwidth usage and the total available bandwidth limit (e.g., 3111MB / 1024MB, which is set in the package).
  - **Last Updated:** Shows the last update time of the resource usage metrics.

Disk Space

Bandwidth

## Summary of the Client Panel Page

- **VPN Protocols:** Lists available VPN protocols like WireGuard and IKEv2.
- **Bandwidth download/upload:** Indicates the bandwidth rate assigned to each VPN client account, as set in the package.
- **User Manual and VPN Client Download:** Provides links to the user manual and VPN client download.
- **One-time Link Generation:** Allows the creation of a one-time link for sharing connection parameters.
- **WireGuard Configuration:** Shows configuration options for WireGuard, including downloading the config file and displaying QR code and detailed settings.
- **IKEv2 Configuration:** Shows configuration options for IKEv2, including downloading CA certificate and profile, and displaying server and login details.
- **Metrics Tab:** Displays detailed usage metrics for bandwidth usage, including current usage, pricing (e.g., 10.00 EUR / GB, set in the package), and last update time.
- **Resource Usage Tab:** Displays current usage of disk space and bandwidth with the bandwidth limit set in the package (e.g., 3111MB / 1024MB) and the last updated time.
