WireGuard VPN module **WHMCS**

[Order now](#) | [Download](#) | [FAQ](#)

Client Area Description

Manage

The screenshot displays the VPN configuration interface. At the top, there are tabs for 'Manage', 'Metrics', and 'Resource Usage'. The 'Manage' tab is active, showing a list of VPN protocols (WireGuard and IKEv2) and their respective configurations. Below the list, there are buttons for 'Download Config', 'Download Profile', and 'Download CA Certificate'. A QR code is visible on the left side of the interface. The 'Metrics' tab is partially visible at the bottom, showing 'Usage Metrics' and 'Bandwidth Usage In (GB)'. The 'Resource Usage' tab is also partially visible at the bottom right, showing 'Usage Metrics' and 'Bandwidth Usage In (GB)'.

- **Example:**
 - **Current Usage:** GB (In), GB (Out)
 - **Pricing:** Price / GB (set in the package)
 - **Last Update:** Time of last data update

Resource Usage

Manage

Metrics

Resource Usage

- **Bandwidth:**
 - **Usage:** Displays the current bandwidth usage and the total available bandwidth limit (e.g., 3111MB / 1024MB, which is set in the package).
 - **Last Updated:** Shows the last update time of the resource usage metrics.

Disk Space

Bandwidth

Summary of the Client Panel Page

- **VPN Protocols:** Lists available VPN protocols like WireGuard and IKEv2.
- **Bandwidth download/upload:** Indicates the bandwidth rate assigned to each VPN client account, as set in the package.
- **User Manual and VPN Client Download:** Provides links to the user manual and VPN client download.
- **One-time Link Generation:** Allows the creation of a one-time link for sharing connection parameters.
- **WireGuard Configuration:** Shows configuration options for WireGuard, including downloading the config file and displaying QR code and detailed settings.
- **IKEv2 Configuration:** Shows configuration options for IKEv2, including downloading CA certificate and profile, and displaying server and login details.
- **Metrics Tab:** Displays detailed usage metrics for bandwidth usage, including current usage, pricing (e.g., 10.00 EUR / GB, set in the package), and last update time.
- **Resource Usage Tab:** Displays current usage of disk space and bandwidth with the bandwidth limit set in the package (e.g., 3111MB / 1024MB) and the last updated time.
