Username

puq-2-94-cloud

Password

BVBXHqTN

Server

dev.softkeel.com - B

Dedicated IP

10.0.1.6

Overwrite package settings

☐

Overwriting the package settings is necessary to personalize the service if you need it.

Send changes to server

☐

To apply the changes on the server, it is necessary to check this checkbox.

Update

In the opened tab, you have a view of the online status of the service. The available online information includes:

- Connection status to the API
- Information about the VPN account on the PUQVPNC server
- Diagnostic information about the account (online status, firewall rule counters, and so on).

Also, below are fields with the client's personal data, such as Username, Password, Server, and Dedicated IP.

You can also individually override package options for the client by checking the 'Overwrite

package settings' box.

After modifying the configuration options, check the '**Send changes to server**' box to save the data to the PUQVPNCP server.

Username	<input type="text" value="puq-2-94-cloud"/>	Password	<input type="text" value="8VBXHqTN"/>
Server	<input type="text" value="dev.softkeel.com - B"/>	Dedicated IP	<input type="text" value="10.0.1.6"/>
Server Group	<input type="text" value="Default (Servers: 2)"/>	WireGuard Server	<input type="text" value="Default"/>

Only small letters and numbers and symbol "-"</small>	Username suffix	<input type="text" value="-cloud"/> <small>Will be appended to the end of username. Only small letters and numbers and symbol "-"</small>
Link to instruction	<input type="text" value="https://puq.pl"/> <small>A link to the instruction will be reflected in the client area.</small>	Link to VPN clients	<input type="text" value="https://puqcloud.com"/> <small>A link to the instruction will be reflected in the client area.</small>
Overwrite package settings	<input checked="" type="checkbox"/> Overwriting the package settings is necessary to personalize the service if you need it.		
Send changes to server	<input type="checkbox"/> To apply the changes on the server, it is necessary to check this checkbox.		

Update

Note: When changing the Server Group, Server, and WireGuard Server fields, make sure you have a user with the username as specified in the 'Username' field pre-created on the new server. Otherwise, you will need to recreate the service for your client.
